Mumps Outbreak Campaign

In MMEx there is a progress note template containing the Standing order for MMR vaccination by JPHS staff.

This has been ordered by Dr Margaret for **administration to patients aged 15-30 years.**

Check for egg allergy & update allergy status in MMEx.

ASCERTAIN FEMALES ARE NOT PREGNANT AND NOT PLANNING TO BE PREGNANT IN THE NEAR FUTURE.

MMEx Instructions

It is important to follow this process, so that data can be pulled to check the effectiveness of the campaign.

1. Click on **Consent** Icon at top of Patient Page
2. Add consent > Tick verbal Consent for *Mumps Campaign*.

Add Progress Note as follows

1. Presenting Complaint > other > Mumps Vaccination.

Be sure to select from the drop down list as in the screenshot - this helps with reporting and tracking the campaign activities.

A screenshot of the MMEx software interface. It shows a dropdown menu for 'Other' with 'mumps va' entered in the search field. The dropdown list is open, showing 'Mumps vaccination' highlighted in yellow. To the right of the dropdown is a 'More' button and a checkbox labeled 'Add to Medical Hx'. Below the dropdown, the text 'Health Check Completed' is visible, followed by 'Mumps vaccine allergy'.

2. Reason for Contact > Immunisation
3. Template > Mumps Campaign- Standing Order 2017 > click **Insert Template**.

Add the Immunisation as follows:

4. Go to Immunisation Tab > click Add Immunisation > Generic MMR (MMR II or Priorix)
5. Enter dose: No 1
6. Batch No:
7. Reason > other > Mumps Campaign.
8. Click **Add**
