ITC Supplementary Services Statistics Report

This report shows data from the ITC Supplementary Services forms completed.

Care Co-ordination & Supplementary Services - Supplementary Services Statistics

There is an option to select which columns display.

Inclusion Rules

The report will include any patient supplementary statistics for 'Care Co-ordination & Supplementary Services' or 'Supplementary Services' forms completed within the report date range for the reporting organisation.

Filter options

- Date Range (From / To) - will include any data with forms completed in that date range.
- Filter by - Division
- Breakdown by user - will display results as a total and then broken down by each user at the organisation
- Patient Status (Active / Inactive / All)
